

Решите уравнение: $2z^2 + 8z + 11 = 0$.

- 1) $z = i\sqrt{\frac{3}{2}}$, 2) $z = -i\sqrt{\frac{3}{2}}$, 3) $z = -2 + i\sqrt{\frac{3}{2}}$ 4) $z = 2 - i\sqrt{\frac{3}{2}}$, 5) $z = 2 + i\sqrt{\frac{3}{2}}$,
6) $z = -2 - i\sqrt{\frac{3}{2}}$
